MAY BE ON THE STAND FOR DAYS

Wm. Rockefeller, J. D. Archbold, H. M. Tilford and Other Minor Officials Are. Under Subpoena.

Many Unsuccessful Attempts Have Been Made To Subpoena John D. Rockefeller, Head of the Company-Overtures Made.

New York, March 24 .- It is under-

stood that the first witness to be called when the hearing in the Standard Oil Co. case is resumed Saturday, will be Henry H. Rogers, vice president of the Standard Oil Co. At the former hearing Mr. Rogers refused to answer a number of questions con cerning the ownership of the stock of the Republic Oil Co. and the Waters Pierce Co. Attorney General Hadley of Missouri, contends that both of these concerns are doing business in Missouri in violation of the anti-trust laws of that state, and further, that both are really owned or their stock is held directly or indirectly in trust by Standard Oil interests. The refusal of Mr. Rogers came before the su preme court on a motion to punish him for contempt in refusing to answer and the matter was left for the supreme court of Missouri to pass upon the same question being before that tribunal for consideration. Recently the Missouri court has decided that the ownership of the stock is material and must be answered. If Mr. Rogers goes on the stand Saturday he will once more be asked these questions The replies to these questions are expected to open the door to other in terrogations which may keep Mr. Rog ers on the stand most of the day.

Many Witnesses To Be Summoned. In addition to Mr. Rogers, William Rockefeller, J. D. Archbold, H. M. Til ford and J. C. Arnold and several minor officials of the Standard Oil Co. are under subpoenaes and are to be examined at the present hearing. It is also said that Attorney General Hadley has under subpoenae a number of former stenographers and accountants of the respondent companies, who will testify to the detail workings of the western corporations in connection with the Standard Oil Co.'s general offices at 26 Broadway.

Questioned as to the possibility of John D. Rockefeller being brought before Commissioner Sanborn, Lawyer Cohen, who is associated with Attorney General Hadley, said that many unsuccessful attempts had been made since the proceedings were began to have the head of the Standard Oil Co. present himself for examination. ters were sent to Mr. Rockefeller on a number of occasions, he said, relative to his coming to New York and appearing before Commissioner San born, as process servers could not serve him as long as he elected to re main in New Jersey. Mr. Cohen inti mated that overtures had been made to Mr. Rockefeller to enter into a stip ulation concerning the line of que tions to be asked him, and limitin them to matters concerned with th connection of the Waters-Pierce an Republic Oil Cos. with the Standard interests, but that all of such com

munications had been ignored. GOV. PATTISON'S CONDITION.

The Physicians Report Him To F Slowly But Steadily Improving.

Columbus, O., March 24 .-- A slir' improvement was reported early Fr day evening in Gov. Pattison's con! ion. The physicians still refuse t discuss the governor's condition an nothing that transpires in the sie room is permitted to reach the publ'. It was reported Friday night that the governor was being kept alive by th administration of oxygen, but this wa

President Roosevelt Suggests Mixed Police at All Ports, Including Casa Blanca.

THIS MAY SOLVE THE PROBLEM

Rivalry, or acquisition of Special Spheres of Laffuence Would Thus Be Avoided, It Is Orged.

Austrian, American and British Dele gates Were in Conference at Algeciras During Thursday-Result As Yet Unknown.

Paris, March 23.-The suggestion of a mixed police at all ports, including Casa Blanca, on which the hopes of an eventual solution of the Moroccan difficulty are founded, emanated from President Roosevelt, according to the Temps' Algeciras correspondent, who

"Instead of giving to France the sole control of a certain number of ports and to Spain like control of an equal number of ports, it is suggested to appoint an equal number of French and Spanish officers at each port. Rivalry or the acquisition of special spheres of influence, it is urged, would thus be avoided. The suggest tion is President Roosevelt's, who con siders that such a combination is most conformable to the principles laid down by the conference. Intention of this proposed solution may be excellent, but it is not practicable and is full of danger.'

Commenting upon this dispatch, the Temps gives President Roosevelt full credit for a desire to preserve the of the police mandate, and exclude tion as the proposal to place Casa Blanca under a third power, but points out that it is a proposition which would appear to appeal to the conference no more than the Casa Blanca scheme and will not be acceptable to either France or Spain.

Petty Personal Rivalries.

Personal differences in the French and Spanish officers, the paper says, would undermine the effective character of the police organization and leave the Moroccan government an opening to take advantage of the petty personal rivalries of the officers in order to continue the condition of an-

THE FAMINE IN JAPAN.

Number of People Starving Estimated at Between 800,000 and 1,000,000.

New York, March 23 .- The New York state branch of the American National Red Cross issued a statement as to famine conditions in Japan.

"The famine in Japan," the statement says, "which has been considered for some time moderately serious, is now known as the result of reliable private advices to be one of the most terrible starvation emergencies of modern times. Conservative estimates place the number of starving Japanese at from 800,000 to 1,000,000 persons. For these, owing to extended rains last summer which have ruined the rice and other food crops, there is absolute ly no relief in sight until next October, when a new harvest will be avail-

NO AGREEMENT ON WAGE SCALE.

Indiana and Illinois Bosses Decided to Oppose the Granting of au Advance in Wages.

Mr. Robbins Was the Target For Vig orous Attacks on His Position in Favor of Paying the 1903 Scale of Prices.

Indianapolis, Ind., March 24 .- The deadlock between the coal operators and miners of the central competitive and southwestern districts continues throughout the meetings of the two joint scale committees of the joint conference and when the meetings adjourned late in the afternoon no agreement had been reached on the wage scale. The differences seemed at the hour of adjournment as far from adjustment as ever. Both joint scale committees adjourned to meet Sat-

Mr. Robbins Replies.

Mr Robbins stated on the floor that he did not propose to be dictated to by the operators of Illinois, Indiana and Ohio. He said his position was fair and just to all interests and the Pittsburg Coal Co., which he represented, was willing to pay the advance in wages asked. He said he was also willing to pay the advance at his own mines in Pennsylvania, Ohio and Illinois, and he had received notice from an Illinois coal company having an output of one million tons annually that it has instructed its representa tives to vote with him. Mr. Robbins said the country would not permit a general strike upon the causes shown. He turned to President Mitchell and said he did not believe the officials of the miners would dare to refuse to allow the miners to work where their demands were met.

Mr. G. A. Magoon, representing the Western Pennsylvania independent mines, in reply to a question of Mr.
